Intro

My name is Alexander Papinutti and I am a Full Stack web developer specialized in Javascript. I started my journey as a professional in 2019, where I worked for a company that offered software for fleet management. My experience there allowed me to to build a solid knowledge base and confidence in my ability to produce and maintain software. I offer my services as a Freelance Web Developer.

Knowledge

- Data collection and visualization: Grafana, InfluxDB.
- Front-end: JavaScript, TypeScript, React + Redux, React-native, Ember, Jest.
- Back-end: Sanity Studio (CMS), AWS Lambda, MongoDB, Mocha.js.
- Version control: Github, Gitlab.

Experience

- Web Developer (Oct 2021 – Present)
      Freelancer – Global
           - Maintenance and production of web related services.

- Software Engineer (May 2019 – Sept 2021)
